Janitorial Cleaning Carts

- Long-lasting wheels and swivel casters are nonmarking

GENERAL PURPOSE CART

Designed to save space yet versatile enough for any job. Accommodates common cleaning items and waste collection. Perfect for use in confined areas with limited storage space.

HYGEN™ MICROFIBER MOPPING KITS

Designed to clean patient rooms in hospitals or where superior cleaning is needed.

With Charging Bucket—Designed for healthcare damp mopping to reduce cross-transmission. Mops wick enough liquid for damp cleaning with fast dry time. Cleans up to 5000 sq.-ft. with a fully-loaded bucket.

With Pulse™ System—Designed with superior microfiber mops, onboard reservoir, and user-controlled release of solution for more efficient cleaning. Cleans up to 10,000 sq.-ft. when refilling Pulse caddy.

HIGH-CAPACITY MODULAR

Provide 40% more storage than standard janitor carts, in the same footprint, with 30% larger, leakproof, zippered, side-opening waste bags. Accommodate 32- to 55-gal. BRUTE™

containers. Mop bucket attachment securely holds WaveBrake® Dual water mopping combos or microfiber mop bucket dollies. Carts also include 2 bottle caddies, 5 rubber tool grip handle holders, and casters.

High-Security Microfiber, No. 1PBJ9—Locking doors and security hood open on both sides to allow quick, easy access. With waste cover, this cart helps meet JCAHO standards. Microfiber disinfecting bucket No. 5NY73, sold separately on page 1372, snaps securely into the platform.

JanSan Microfiber, No. 1PBJ8

—Features 4 removable, color-coded pails and 4 nonmarking 4" swivel casters. Folding front platform accommodates microfiber disinfecting bucket No. 5NY73, sold separately on page 1372. Includes two 30-qt. storage bins and mop bucket attachment.

JanSan Microfiber, Nos. 1PBJ7 and 1PBJ6—Include folding front platform for microfiber disinfecting bucket No. 5NY73, sold separately on page 1372, and mop bucket attachment.

Safety Barricade System No. 2LEB5

Pedestrian Safety Cones and Barriers

SAFETY CONES

Feature black messaging on all 4 sides.

Barricade Cone System—Includes 1 cone, 1 weighted base, and 1 nylon barricade belt. 2 units are required to make complete system.

Accessories—Weighted Base No. 2LED3 helps stabilize 36" safety cones. Flashing Light No. 2LEC9 requires one D battery, not included. Sign Holder No. 2LED2 snaps into the top of 36" cones to hold standard rigid signs. Lock-In Sign Message Board No. 6VKT2 is injection-molded polypropylene and is suitable for high-traffic indoor areas. Message Labels No. 6GJA1 are polypropylene and compatible with safety cones. All are for use in hospital, office, and school applications.

FLOOR SIGNS AND BARRIER CHAIN

Highly visible polypropylene floor signs for indoor/outdoor use. No. 2LEB3 Chain can be strung between signs or cones to create a visual barrier.

DOOR AND HALLWAY BARRICADES

Pole Barricade No. 2LEB6 telescopes 42" to 72", and No. 6GJA0 telescopes 30" to 44" to close off areas to foot traffic. Double-locking design with adjustable torsion lock and rubber ends grip the door frame or wall.

No. 2LEB7 yellow plastic Sign Barricade with "Closed" symbol restricts access to doors and hallways.

EXPANDABLE MOBILE SAFETY BARRICADE SYSTEM

Accordion-style barricade expands up to 13 ft. Flexible panels can be manipulated to fit a variety of applications. Folds for convenient storage.
