Respirator Protection

Remove Watermark Now

Respirators protect employees from inhaling harmful substances, including chemical, biological, and radiological agents. These substances can be in the form of airborne vapors, gases, dust, fogs, fumes, mists, smokes, or sprays.

Visit www.osha.gov for complete details and regulation requirements.

3M™ Rugged Comfort Half Facepiece Reusable Respirator 6500 Series

Rugged Comfort

in the harshest environments

The 3M™ Rugged Comfort Respirator is designed with tough and dirty worksites in mind to help you stay comfortable, productive and protected. The 6500 series respirator delivers comfort, durability and stability with a firm, lightly textured silicone faceseal, strong body construction, low-profile design and proprietary 3M™ Cool Flow™ Valve. The 6500QL Quick Latch drop-down mechanism gives you a one-handed, easy way to take the respirator on and off as you move in and out of contaminated areas.

3M 3M™ Particulate Respirators, N95

Designed to help provide comfortable, reliable worker respiratory protection against certain non-oil based particles in suggested applications including grinding, sanding, sweeping, bagging and other dusty operations. Lightweight construction helps promote greater worker acceptance and comfort. Features 3M's Advanced Electret Media, welded strap attachment, soft nose foam and adjustable noseclip to help provide a custom and secure seal. NIOSH Approval TC-84A-0007.

3M 3M™ Particulate Respirators, P95 with Exhalation Valve

Helps provide comfortable, reliable worker protection against certain oil and non-oil based particles including those present with nuisance levels* of acid gases such as sulfur dioxide, hydrogen fluoride, and/or chlorine. An excellent choice for work settings that involve heat, humidity and long wear periods. Suggested applications include glass etching, chemical processing, paper processing, aluminum smelting and brewing operations. Lightweight construction promotes greater worker comfort and may contribute to increased wear time. Meets NIOSH 42 CFR 84 requirements.

*3M™ recommended for relief against nuisance levels of acid gas. Nuisance level acid gas refers to concentrations less than the OSHA PEL or other applicable government exposure limits, whichever is lower.

**3M™ recommended for relief against nuisance levels of organic vapors. Nuisance level organic vapor refers to concentrations less than the OSHA PEL or other applicable government exposure limits, whichever is lower.

3M 3M™ Particulate Respirator 9210, N95

Three-panel respirator is uniquely designed to help provide comfortable, reliable worker protection against non-oil based particles. Suggested applications include grinding, sanding, sweeping, bagging and other operations that create dust. Also useful in textile operations, dry chemical handling, surface preparation, food preparation and handling, woodworking, grain handling and milling, processing of minerals, coal and certain other substances. Meets NIOSH 42 CFR 84 N95 requirements.

WARNING

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Disposable

9211+

3M™ Aura™ Particulate Respirator 9211+, N95

Features comfortable braided headbands and contoured nose panel. Chin tab is designed for ease of positioning, donning and adjustment. Embossed top panel helps reduce potential fogging of eyewear from warm, moist exhaled airflow. Individually wrapped. Meets NIOSH 42 CFR 84 N95 requirements.

2300N95

MOLDEX 2-Strap Respirators

Dura-Mesh® shell protects the filter media so that it stays cleaner-looking longer. Shell resists collapsing, even in heat and humidity. Softspun® lining gives added comfort and durability. Contour molded nosebridge with a soft foam nose cushion for an easy comfortable fit. The 2300N95 Series features an exhale valve and is suitable for most welding applications. The exhale valve reduces hot air buildup, reducing breathing resistance and keeping workers cooler longer. The 2400N95 Series has an added carbon layer to help filter out nuisance levels of ozone and organic vapors (less than OSHA PEL). Suitable for most welding applications and fits easily under welding hoods. No metal noseband to adjust and the seal is maintained without pressure points. Straps are securely attached to avoid breakage at the seal. The 2500N95 has an added carbon layer to help filter out nuisance levels of acid gases (less than OSHA PEL). All meet heat and flame resistance in accordance with ANSI/ISEA 110-2003, Section 7.11.1.

GERSON N95 Particulate Respirators with OV-AG Nuisance Relief

Layer of activated carbon provides comfort relief against nuisance levels of both organic vapors and acid gas. Features soft foam nose cushion, staple-free construction and collapse-resistant double shell. Contoured nose-clip provides greater comfort and helps reduce potential fogging. Smooth latex-free polymer head straps won't catch on hair. No pre-stretching needed. Model 1745 features a premium oversized valve to expel hot air for cool comfort. NIOSH Approved.

3M 3M™ Rugged Comfort Half Facepiece Reusable Respirators, 6500 Series

Helps provide respiratory protection against airborne contaminants in harsh, dirty environments. Facepiece is designed to help promote comfort, durability and stability with a firm, lightly textured silicone faceseal and strong body construction. Helps provide respiratory protection at concentrations up to 10 x the Permissible Exposure Limit (PEL) when respirator is properly fitted. Sleek, overmolded/low-profile design helps to give a wide field of view that better suits compact work spaces and simplifies cleaning. Resilient silicone faceseal offers an extended facepiece life, even keeping its shape in high-heat environments. Facepiece offers numerous other comfort features including a special valve cover that helps to direct exhaled breath and moisture downward and 3M's proprietary Cool Flow™ Valve that helps to make breathing easier by reducing heat and moisture. Made to fit securely and comfortably on the head, the facepiece comes with an adjustable head harness assembly featuring polyester/spandex straps that stretch and conform. Facepiece is compatible with all 3M™ bayonet-style filters and cartridges to help provide respiratory protection against a variety of gases, vapors and particulate hazards according to NIOSH approvals. The 6500QL Series features a proprietary Quick Latch design offering an easy, one-hand touch drop-down mechanism for putting the facepiece on and/off while moving in and out of contaminated areas. NIOSH/MSHA Approved.

WARNING

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

3M 3M™ Replacement Cartridges and Filters

Use with 3M™ Respirators 5000, 6000, 7000 and FF-400 Series, according to NIOSH approvals. When properly selected, cartridges and filters help provide protection from a variety of gases, vapors and particulate hazards.

*Nuisance level organic vapors refer to concentrations less than the OSHA PEL or applicable government occupational exposure limits, whichever is lower. Do not use for respiratory protection against organic vapors.
 **Nuisance level acid gases refer to concentrations less than the OSHA PEL or applicable government occupational exposure limits, whichever is lower. Do not use for respiratory protection against acid gases.
 ***3M™ recommended for ozone protection up to 10 x OSHA PEL or applicable government occupational exposure limits, whichever is lower. Not NIOSH approved for use against ozone.
 ****OSHA regulations require gas proof goggles be worn with half facepiece respirators when used against formaldehyde.

Only 3M™ filters 2000 Series, 7093, 5N11 or 5P71 are approved for use with 3M™ 5000 Series Respirators. Cartridges on 5000 Series Respirators cannot be replaced. The 3M™ Filter Adapter 502 is required for use of the 2000 Series and 7093 filters with the 5000 Series Respirators and 6000 Series Cartridges. The 3M™ Filter Retainer 501 is required for use of the 5N11 and 5P71 prefilters with the 5000 Series Respirators.

68097

3M™ Mold Remediation Respirator Kit

Includes a 3M™ Full Facepiece 6000 and two pairs of 3M™ Particulate Filters 2097, P100, to help reduce exposure to mold and low level organic compounds produced by mold. Simple, one-stop solution to help provide respiratory protection during most mold remediation activities such as vacuuming, sanding, removal and disposal. A separate chemical cartridge may be needed for exposure to disinfectants.

WARNING

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Fit Test Kits

Choose from a variety of OSHA-compliant fit test products. Saccharin fit test kit includes poly-coated hood, (2) nebulizers, sensitivity and fit test solutions and instructions. Bitrex™ is safer than saccharin tests while producing identical results. Disposable glass ampules make pouring solution into nebulizers easier and reduces the chance of contamination. Use smoke test kits for air purifying respirators. Standard kit includes irritant smoke tubes, aspirator assembly and record form in a protective carry pouch. Deluxe smoke test kit includes a smoke fit tube pump with batteries which generates the required 200 mL per minute of smoke, (6) smoke tubes with caps and instructions.
