Welding & FR Safety

Remove Watermark Now

Electromagnetic energy given off by an arc or flame can injure workers and is commonly referred to as radiant energy. Workers must use PPE, such as safety glasses, goggles, welding helmets, FR apparel and gloves.

Visit www.osha.gov for complete details and regulation requirements.

37191

Jackson Safety* WH70 BH3* Variable Auto-Darkening Filter with Balder* Technology

Features superior angle of view, enhanced visibility and color recognition, variable Shade 9-13, adjustable sensitivity and opening time delays. Curved front cover plate offers reduced heat build-up, reflections and fogging. Aerodynamic shell designed for better fume deflection. Smooth, rounded perimeter for increased comfort. Offers quick and easy replacement of safety plates. Auto-On ADF is always ready to weld. Meets revised ANSI Z87.1 High Impact 2010 standard, CE certified.

by Honeywell

Tigerhood® Thermoplastic Welding Helmets

Provides extended throat protection while blocking fumes and smoke from the face. Molded from Noryl®. Size and shape allow air to circulate, helping to clear any smoke and fumes that seep in and to evaporate perspiration in the perforated sweatband. (If hazardous fumes are present, appropriate respirators must be worn). Molded-in colors eliminate chipping, peeling and fading; and smooth, seamless shell deflects sparks and spatter, reducing the risk of burn through. Exclusive, 3C free-floating headgear with multiple wearing adjustments comfortably accommodates protective spectacles and respirators. Available with Speedy® Loop system for frequent on and off use with protective caps. Fibre-Metal® welding helmets are SEI certified. Comes complete with Shade 10 filter plate installed. Gray.
